PrimeXBT shall not be under any obligation to investigate such Orders further. PrimeXBT shall not be liable to and/or shall not maintain any legal relations with any third party, other than the Client, in relation to Orders placed through the Client's Account and any position opened through PrimeXBT's Platform(s) and System(s).

4.13. If the Client acts on behalf of any third party and/or on behalf of any third party's name, PrimeXBT shall not accept this person as a Client and shall not be liable to this person regardless of whether such person is identified or not.

4.14. Leveraged Products are Derivative Products, and therefore do not confer ownership or proprietary interest in the underlying instrument. You therefore understand and acknowledge that no physical delivery of any underlying asset shall occur when placing an Order for execution through the Trading Platform.

4.15. You agree that PrimeXBT is the only execution venue in relation to your Transactions, Orders, and all other trading activity under this Agreement. Although we may transmit your Orders for execution to third-party liquidity providers, contractually we shall be the sole counterparty to your Transactions.

4.16. PrimeXBT may refuse and/ or cancel your Transactions/ Orders and withhold any profits derived from such Transactions/ Orders in instances where PrimeXBT has reasonable grounds to believe that you are involved in any of the actions described in clause 5.2. of this Agreement.

4.17. The Company reserves the absolute discretion to offer, modify, or discontinue any of its services and/or products at any time, without prior notice. The availability of services and products may vary by jurisdiction and certain services and products may not be available in some jurisdictions. Furthermore, the Company reserves the right to determine the volume and/or the quantity and/or the liquidity of any product offered to the Client. In addition, leverage restrictions might apply for certain jurisdictions and/or clients. The Company makes no representations or warranties regarding the availability of services and products in any specific jurisdiction.

4.18. The Client acknowledges and accepts that the Company reserves the right, at its sole discretion and in accordance with its internal risk management policies and procedures, to impose limits on the Client's trading activity. Such limits may include, without limitation: (i) restrictions on the maximum leverage available to the Client; (ii) limitations on the maximum investment amount per asset or financial instrument or crypto asset or per Client; (iii) caps on the aggregate exposure of the Client across specific asset classes, instruments, or market conditions; and (iv) any other trading parameters the Company deems necessary to manage its own exposure and risks.

4.18.1. The Company may implement, amend, or remove such limits at any time, without prior notice, where deemed necessary to mitigate its risk exposure, preserve the orderly functioning of the platform or to comply with its regulatory obligations. The Client further understands that these limits may differ among Clients or jurisdictions.

4.18.2. The Client acknowledges that the Company, at its sole discretion and under certain market conditions, including but not limited to instances where internal exposure thresholds have been reached or exceeded, may refuse to accept an order. Such actions may be taken where the Company's internal exposure limits, as set out in its internal risk management policies, have been reached in respect of the relevant Financial Instrument or its underlying asset. It is further understood that such refusal may apply to pending Client orders.

4.18.3. You acknowledge and agree that the availability, scope, and functionality of the Services may change from time to time. 4.18.3.1. The Company is not obliged to provide prior notice, advance warning, reasons, or an explanation for any action taken under this clause 4.18.3.

4.19. Third-Party Technical Analysis

From time to time, the Company may make available, disseminate, or republish technical analysis, market commentary, technical indicators, price projections, or other related informational materials

(hereinafter referred to as the “Third-Party Content”) that have been created or provided by independent third parties of the Company. Such Third-Party Content may be published on the Company’s official website, client communications, or through its verified social media accounts, as well as on messaging platforms that facilitate real-time or group-based communication with clients and followers.

The Client expressly acknowledges and agrees as follows:

4.19.1. All such Third-Party Content is provided strictly and solely for general informational purposes and illustrative discussion and shall not under any circumstances be interpreted or construed as investment advice, a recommendation, or an offer to buy or sell any financial instrument, digital asset, or derivative product.

4.19.2. The Company does not endorse, adopt, verify, or approve the views, analyses, statements, or conclusions contained in any Third-Party Content and makes no warranty, representation, or undertaking, whether express or implied, as to the accuracy, reliability, completeness, timeliness, or appropriateness of any such material for any particular purpose or use.

4.19.6. The Company does not undertake any obligation to monitor, review, update, correct, or continue publishing any Third-Party Content once made available. The Company reserves the right to amend, remove, or discontinue the dissemination of any such content at its sole and absolute

discretion, without notice.

4.19.7. The Client waives any claim, action, or cause of action, whether legal or equitable, against the Company, its affiliates, directors, officers, employees, or agents arising from or relating to the publication, use, reliance on, or interpretation of any such Third-Party Content.

6. RISK DISCLOSURES

6.1. In respect to all available Services provided by PrimeXBT, you hereby acknowledge, understand, and accept that:

6.1.1. **Leveraged Products are very speculative and risky.** Trading in Leveraged products is highly speculative and is suitable only for those Clients who (a) understand the nature and risks of the product and are willing to assume the financial risks involved, and (b) are financially able to bear losses in excess of their investment capital.

6.1.2. **Trading with Leveraged Products is not an appropriate investment for retirement funds.** You represent and warrant that you understand these risks; and that you are willing and able, financially and otherwise, to assume the risks of trading with Leveraged Products and that the potential loss of your investment funds will not irreversibly damage your quality of life.

6.1.3. High leverage can lead to quick losses. The high leverage associated with trading with Leveraged Products can result in significant losses due to price changes and the inherent volatility of certain underlying assets. Clients must maintain the minimum Margin requirements on their open positions at all times. It is the Clients' responsibility to monitor their account balance. PrimeXBT has the right to liquidate any or all open positions and cancel any or all Orders whenever the minimum Margin requirement is not maintained. The higher the leverage in an open position, the higher the risk of losing the entire investment capital when the Market moves against your position.

6.1.4. Prices on the Trading Platform may be different from prices elsewhere. PrimeXBT will provide indicative prices for every Leveraged product to be used in trading, valuation of Clients positions and determination of Margin requirements. Although we expect that these prices will be reasonably related to prices of underlying assets available in the open market, the prices we report may vary from prices available to banks and other participants in what is known as the open market. We will exercise considerable discretion in setting and collecting Margin from Clients for their open positions.

6.1.5. Marketing Communications are for information purposes only. PrimeXBT is not a financial advisor. The market recommendations provided do not constitute an offer to buy or sell, or the solicitation of an offer to buy or sell any Leveraged products provided by PrimeXBT. Each decision by the Client to enter into a buy or sell Order or other Transaction with PrimeXBT and each decision whether such Order or other Transaction is appropriate or proper for Client is an independent decision of the Client. PrimeXBT does not act as an advisor, nor does it serve as a fiduciary to the Client. The Client agrees that PrimeXBT has no fiduciary duty to Client, and it shall not be responsible for any liabilities, claims, damages, costs, and expenses, including attorneys' fees, incurred in connection with the Client following trading recommendations, actions or omissions based upon any information provided by PrimeXBT.

6.1.6. There is no central market or clearinghouse guarantee. Each Transaction, Order or position opened by the Client is a contract directly between PrimeXBT and the Client. There is no clearing house and no guarantee by any other party of PrimeXBT's payment obligations to the Client.

6.1.7. No guarantees of profit. There are no guarantees of profit or freedom from loss in

Trading with Leveraged Products and/or Virtual Assets. The Client has not received, nor shall they receive such guarantees from PrimeXBT or from any of its Affiliates or representatives. The Client should always be aware of the risks inherent in trading with Leveraged products and should consider and acknowledge their financial ability to bear such risks and withstand any losses incurred before dealing in Leveraged Products.

6.1.8. Clients may not be able to close or open positions. Due to market conditions, Website maintenance, technical issues, system failure or other circumstances PrimeXBT may be unable to close existing position or open new position or execute any other Transaction at the level specified by Client, and the Client agrees that PrimeXBT shall not bear any liability for failure to do so.

6.1.9. Service interference and Malicious third-party attacks. There may be third party or other attacks targeting computers/networks, spreading malware, running botnets, (D)DOS attacks, defacing websites, violations of network security, etc. which can materially alter, intercept, or otherwise interfere with the placement or execution of an Order on the Trading Platform, or the transfer of funds to and from the Clients Account. The Client acknowledges, understands, and accepts that the PrimeXBT shall bear no responsibility or liability whatsoever in such an event.

6.2. The above Risk Disclosures are without prejudice to the Risk Disclosure Statement which can be found on the Website and must be read, understood, and accepted prior to the registration of a Client Account and the engagement of trading with PrimeXBT.

7. TRANSACTIONS AND COMMISSIONS/ FEES

7.1. The provision of Services and the performing of both trading and non- trading operations under the Agreement is subject to the payment of trade commission, margin financing, deposit/withdrawal related charges and other fees (the “Fees”) to PrimeXBT. The Fee Schedule is available at all times on the Website.

7.2. Information regarding margin call and stop-out levels for all instruments can be found in the Company’s website in the “Fees and Commissions” section.

7.3. PrimeXBT charges commission on carrying out operations to pay in/withdraw funds. The amount of commission for paying in/ withdrawal of funds depends on factors such as the Transaction amount,

the type of Transaction, the Transaction currency, the system/method of payment/withdrawal and so forth.

7.4. When placing Orders in Leveraged Products, the applicable Fees for executing the Transaction or maintaining an open position or any other relevant Fee may appear as a percentage of the value of the Order, therefore the Client shall be responsible to understand what fees shall apply to their Order and how Fees are calculated in each case.

7.5. Any refund of Client funds shall be processed in accordance with the Withdrawal and Refund Policy, which forms an integral and inseparable part of this Agreement. Refunds may be subject to administrative fees, as disclosed within the relevant Refund Policy.

7.6. PrimeXBT may change its Fees and Commissions from time to time. PrimeXBT shall have the right to amend the fee schedule without prior notice to the Client.

7.7. PrimeXBT reserves the right to reject a withdrawal request in instances where it has reasonable grounds to believe that the said instruction is being placed to abuse any of its offerings and/or is contrary to its policies and procedures.

7.8. The Client hereby acknowledges and agrees that, in the event the Company erroneously credits an amount to the Client's account which exceeds the amount rightfully due, the Client is under an immediate obligation to notify the Company of such overpayment and, upon demand, repay the full amount of the excess funds. The Client expressly agrees that any retention of such overpaid funds constitutes a material breach of this Agreement, including but not limited to the duty to act in good faith as stipulated herein.

Failure to return the excess funds promptly, upon the Company's request, will entitle the Company to pursue all legal and equitable remedies available under this Agreement and applicable law, including but not limited to the initiation of legal proceedings for the recovery of such funds, imposition of account restrictions, suspension of services, and termination of the Client's account. The Client further acknowledges that such actions may also result in additional liabilities, including legal costs, damages, and interest, which the Client shall be liable to pay in full.

7.9. In the Company's absolute discretion, withdrawals may be free of charge for a limited period and up to a specified amount per calendar month, as determined by the Company from time to time. Withdrawal fees may be adjusted based on factors, including but not limited to the client's portfolio on the platform. The Company reserves the right to waive or reduce withdrawal fees, including setting them to zero, for a limited time as part of promotional campaigns.

7.10. While the Company may, in its absolute discretion, offer zero-fee withdrawals, in certain cases a

fee may apply to such withdrawals; the exact fee will be shown on the withdrawal page prior to submission of the withdrawal request.

7.11. Third-party fees. The Client acknowledges that deposits and withdrawals may be processed via, inter alia, third-party financial institutions, payment service providers, card schemes, or blockchain networks, which may impose their own fees, FX spreads, charges, or deductions. Any such third-party fees are outside the Company's control and are borne by the Client. The Company is not responsible for, and does not reimburse, any fees or deductions charged by such third parties.

7.12. Invalid or Unsettled Deposits

7.12.1. In the event a deposit is credited to a Client's account but is subsequently identified as invalid, unsuccessful, reversed, recalled, or otherwise not properly settled due to any reason, including but not limited to issues reported by the relevant payment provider, financial institution, or third-party service, the Company reserves the right to unilaterally reverse the credited amount and adjust the Client's account balance accordingly.

7.12.2. The Client remains solely responsible for any resulting negative balance and shall immediately repay any outstanding amount upon demand. Repeated instances of unsettled or invalid deposits may be treated as misuse of the platform and may result in the imposition of additional restrictions, suspension, or termination of the Client's account at the Company's sole discretion.

7.12.3. The Company accepts no liability for any losses, damages, or claims arising from or in connection with the reversal or adjustment of funds pursuant to this section.

7.13. The Client agrees that in certain cases, a blockchain (network) fee may apply to crypto withdrawals; the exact fee will be shown on the withdrawal page prior to submission of the withdrawal request.

7.14. Pricing discrepancies and internal issues

7.14.1. From time to time, due to technical, configuration, data, connectivity, liquidity-provider, or other internal or third-party issues, the prices displayed, executed, or recorded on the Platform, or the way market cost components are incorporated into pricing or charges, may not fully reflect standard market conditions for the relevant instrument during a limited period (a "Pricing Discrepancy").

7.14.2. A Pricing Discrepancy may result in trades being opened, closed, valued, margined, or settled on terms that would not have been available under standard market conditions.

7.14.3. Where the Company identifies a Pricing Discrepancy, the Company may take any corrective action it considers necessary to restore the affected Trading Account(s) and affected trade(s) to the

economic position that would have applied had standard market conditions and applicable market cost components been properly reflected. Such corrective action may include, without limitation:

- (a) recalculating the price, PnL, commissions, fees, funding/financing outcomes, margin, and any other relevant account entries for affected Trades,
- (b) repricing or amending affected Trades,
- (c) reversing, cancelling, or voiding affected Trades, in whole or in part, where recalculation is not reasonably practicable,
- (d) making corresponding balance adjustments, including the deduction of any profits, credits, rebates, or benefits that arose primarily from the Pricing Discrepancy.

7.14.4. The Client acknowledges that profits, credits, or other benefits generated primarily from a Pricing Discrepancy do not represent profits generated under standard market conditions, and the Company is not obliged to honour such amounts.

8. MARGIN & LEVERAGED TRADING

8.1. When executing Transactions and placing Orders for Leveraged Products, the Client shall be required to deposit a Margin amount. A Leveraged Order cannot be placed without Margin. Margin is deposited by the Client in their Client Account or Sub-Account (depending on the type of service) and it is held by PrimeXBT in corresponding designated Client Fund Accounts in either Bank Accounts (for Fiat margin) or Wallets (for Cryptocurrency margin), as displayed on the Client Account, with the specific Client ID that has opened the leveraged position.

8.2. Clients must provide and maintain in their Account and/or any relevant sub-account (depending on the type of service) the necessary Margin in such amounts, and within such limits as PrimeXBT, in its sole discretion, may from time to time require in order to provide its Services and keep the leveraged positions open. PrimeXBT may change Margin requirements at any time without prior notice to Client, and the Margin requirements may vary from different Orders and/or Leveraged Product.

8.3. All Margin shall be held by PrimeXBT, notwithstanding any provision or instructions to the contrary, as continuing security and shall be subject to a general lien and right of set off in favor of PrimeXBT for any and all of your obligations, liabilities or monies whatsoever at any time now or hereafter owing, due, incurred or payable by the Client PrimeXBT under this Agreement or otherwise, whether present or future, actual or contingent, solely or jointly or whether as principal or surety, and

PrimeXBT may realize any Client Margin as provided for in this Agreement. Subject to PrimeXBT's rights under this Agreement, including, without limitation, PrimeXBT will not sell, transfer, loan, hypothecate, rehypothecate or pledge any Margin allocated to a Client Account or Sub-Account unless specifically instructed by the Client, authorised under these Terms, or compelled by a court of competent jurisdiction to do so.

8.4. Subject to the applicable regulatory framework, PrimeXBT may deposit in PrimeXBT's general account(s) or any other account or Wallet (as applicable to the currency), any Client Margin and may commingle Margin with the Virtual Assets, currencies, and properties of PrimeXBT or other Clients. Any Margin and other Virtual Assets held by PrimeXBT on the behalf of Clients shall be segregated from PrimeXBT's own Virtual Assets, currencies, and property.

8.5. PrimeXBT may aggregate Client Orders. The allotment or distribution of any asset pursuant to such Order aggregation shall be at PrimeXBT's sole and absolute discretion. The Client acknowledges and agrees that PrimeXBT may enter into Transactions as principal and, in circumstances where PrimeXBT does act as a principal to any transaction, PrimeXBT may also take such actions as it reasonably requires to limit its liability/exposure under such Transaction.

8.6. PrimeXBT may at any time liquidate the Client's open positions or withdraw funds from Client Accounts, whether held by PrimeXBT in a Bank Account or Wallet for the Client and bearing the Client's ID, without notice:

8.6.1. to ensure that actual Margin equals or exceeds the required Margin to maintain open positions; and/or

8.6.2. to satisfy any payment obligation to PrimeXBT, including commissions, margin financing and other costs in respect of the Clients' Account.

8.6.3. to prevent the accumulation of excessive Negative Balance of open positions.

8.7. The Client's open positions must be fully margined at all times. The client is responsible for monitoring their account and ensuring that the required Maintenance Margin is fully maintained to support open positions.

8.8. If the Maintenance Margin requirements are not met, open positions will be closed without

additional notice, regardless of whether this results in a loss or a profit. It is important to note that the company bears no responsibility or liability for any outcomes resulting from such closures.

8.9. The Company reserves the right to use the Client's funds from any other wallet and/or account in order to cover the negative balance on the Client's trading account.

8.10. In the event of system failure or incorrect position calculation, PrimeXBT may either close the open position or use funds from the Client Account to keep the position open, whichever PrimeXBT sees fit in its absolute discretion. Refunded funds shall be processed in accordance with the Withdrawal and Refund Policy, which is an integral and inseparable part of this Agreement.

8.11. The Client acknowledges that trading on Margin may be subject to taxation. The Client shall remain fully and solely responsible for reporting, paying, settling and/or remitting any and all taxes (whether on any income, capital gains, sales, value added or similar tax and so forth) to the appropriate tax authorities that have jurisdiction over which the Client may be liable to pay tax to. For the elimination of any doubt, PrimeXBT shall not be responsible nor liable for withholding, collecting, reporting, paying, settling and/or remitting any taxes, which may arise from the Client's participation in Margin Trading.

8.12. The Clients are entitled to withdraw any portion of funds corresponding to the free margin available in their Accounts to their Wallet, subject to applicable operational restrictions and any other limitations set forth by the Company. Notwithstanding this right, the Company reserves the right to suspend and/ or reject a withdrawal request in instances where it has reasonable grounds to believe that the said instruction is being placed to abuse any of its offerings and/or is contrary to its policies and procedures. In addition, the Company reserves the right to reject any withdrawal request if there are reasonable grounds to suspect that the request is being made with the intent to abuse the Company's Negative Balance Protection Policy ('NBP'), exploit off-quotes, profit on incorrect pricing from liquidity providers, or any other technical anomalies and/or errors. In such instances, the Company reserves the absolute right to cancel the withdrawal request and to make the necessary adjustments to the Clients' account(s), including but not limited to, the deduction of any and all profit derived from such errors or abusive activities.

The Company does not act as the Client's fiduciary, adviser, or trustee. The Client expressly acknowledges that the Company does not provide investment advice, portfolio management, or any form of recommendation in respect of cryptoasset transactions.

All services are rendered on an execution-only basis. Any communication, market data, research, or general commentary provided by the Company shall not be construed as advice or an inducement to engage in any specific transaction or trading strategy.

10.5 Exchange Completion and Refunds

Upon the successful execution of a cryptoasset exchange transaction initiated by the Client, and once the Client has received the exchanged assets, whether in the form of fiat currency or supported cryptoassets, the Company shall display a confirmation of the completed exchange via the Platform interface. Such confirmation may be presented through a transactional pop-up notification or similar means of electronic acknowledgment.

A record of successfully executed exchange transactions shall be made available to the Client via the Client's account interface. The Client may access such records at any time, subject to any operational constraints, system maintenance, or legal restrictions that may apply.

The Client expressly acknowledges and agrees that refunds will not be permitted following the completion of an exchange transaction. A refund may only be processed with respect to funds that remain unconverted and held by the Company prior to the finalization of the exchange instruction. Once an exchange transaction has been executed, regardless of whether it involves a conversion from fiat to cryptoasset or cryptoasset to cryptoasset, the Client shall be deemed to have irrevocably consented to such transaction and no entitlement to reversal, revocation, or refund shall arise.

The Company expressly disclaims any liability for losses, damages, or claims arising from mistaken submissions, incorrect recipient wallet addresses, or the Client's failure to adhere to published procedures and requirements.

The Company does not guarantee the availability of any specific cryptoasset or trading pair and reserves the right to modify, suspend, or remove such assets at any time, in its sole discretion or where required to do so by law or risk management policy.

10.6 Risk Disclosures

The Client acknowledges, understands, and agrees to the following non-exhaustive risks associated with the use of the Company's platform and services:

10.6.1 Risk of Software and System Vulnerabilities

The Client acknowledges that the Company's trading platform, mobile applications, backend infrastructure,

APIs, smart contract protocols, and associated software may contain flaws, vulnerabilities, coding errors, or unforeseen design defects. Such defects may materially impair functionality or result in the irrecoverable loss of data, funds, or access to cryptoassets. The Company makes no representation or warranty, express or implied, that the operation of its systems shall be uninterrupted, error-free, or secure. The Company disclaims all liability for losses arising from any such defects, failures, or system breaches, whether foreseeable or not.

10.6.2 Regulatory and Legal Risk

The Client accepts that blockchain and cryptoasset-related technologies are subject to uncertain and rapidly evolving legal and regulatory frameworks. It is possible that jurisdictions may adopt new laws, regulations, or interpretative guidance that materially affects the Company's operations, the legality of cryptoasset transactions, or the rights and obligations of Clients. The Company reserves the right, without liability, to modify, suspend, or terminate any aspect of its services in response to regulatory developments. The Client waives any claim or cause of action against the Company or its affiliates arising from or related to changes in applicable law or regulatory position.

10.5.3 Risk of Business Abandonment or Technology Failure

The Client acknowledges that the continued development, deployment, and operation of the Company Systems, including any platform features, cryptoasset support modules, or related infrastructure, may be abandoned, delayed, suspended, or terminated at the discretion of the Company. Such cessation may result from commercial infeasibility, insufficient adoption, lack of funding, or technological redundancy. The Client accepts that no assurance is given regarding the continued availability or viability of any specific cryptoasset or system functionality.

10.6.4 Cybersecurity, Phishing, and Internet-Based Risks

The Company expressly disclaims liability for any loss, theft, or compromise of Client assets or information resulting from phishing, spoofing, SIM-swap attacks, domain spoofing, or other internet-based fraud. The Company shall bear no liability for losses resulting from the Client's failure to adopt reasonable security precautions.

10.6.5 Blockchain Network Risk and Mining Attacks

Cryptoassets supported by the Company are typically maintained on public blockchain networks. These networks may be subject to attacks such as double-spending, chain reorganizations, majority-hashrate attacks, selfish mining, or other consensus failures. The Client accepts that such events may compromise the reliability, finality, or accuracy of cryptoasset transactions. The Company disclaims all liability in connection with such events, whether or not any mitigation action is taken.

10.6.6 Market Risk and Volatility

Cryptoassets are highly speculative and subject to extreme price volatility, including total loss of value. The Client understands that the value of any cryptoasset may fluctuate significantly due to market dynamics, legal developments, technological change, or third-party influence. The Client agrees that the Company shall bear no liability for losses resulting from market movements, pricing errors, or liquidity constraints.

10.6.7 Disclaimer of Warranties

The Company provides all cryptoasset-related services on an “as is,” “as available,” and “under development” basis. To the fullest extent permitted by law, the Company expressly disclaims any and all representations and warranties, whether express, implied, or statutory, including but not limited to merchantability, fitness for a particular purpose, uninterrupted access, or non-infringement. The Client acknowledges and accepts that participation in cryptoasset transactions is undertaken entirely at the Client’s own risk and discretion.

10.6.8 Protocol and Community Risks

Blockchain ecosystems may undergo forks, protocol upgrades, or market-driven changes without warning. These changes may result in the creation of competing chains or significant alterations to the rules governing a cryptoasset. The Client understands and accepts the risk of split chains, incompatible updates, or devaluation of assets. The Company shall not be obligated to support any forked chain, and may at its sole discretion determine whether or not to continue supporting a particular network or asset.

10.6.9 Taxation Risks

The Client acknowledges sole responsibility for determining, reporting, and settling any tax obligations arising from the acquisition, disposition, holding, staking, or transfer of cryptoassets. The Company shall not be liable for any tax consequences incurred by the Client and makes no representations regarding tax treatment under any legal system. By using the Company’s services, the Client irrevocably waives any claim against the Company or its affiliates in relation to taxation.

10.6.10 Cyber Events and Security Incidents

Malicious third parties may attempt to compromise the Company’s infrastructure through hacking, ransomware, malware, denial-of-service attacks, or other disruptive acts (“Cyber Events”). The Company does not guarantee that the root cause of such events will be identifiable or that mitigation will be successful. The Client expressly acknowledges that the Company shall not be liable for losses, damages, or business interruption resulting from any such Cyber Event, whether foreseeable or not.

10.7 Availability of Cryptoassets

The Client acknowledges and agrees that the Company does not make any representation, warranty, or

guarantee regarding the continued availability of any specific cryptoasset, token, virtual currency, or trading pair on its platform. The Company reserves the absolute and unilateral right, at any time and without prior notice, to modify, suspend, restrict, or permanently remove any cryptoasset or trading pair from its platform, whether for operational reasons, risk management considerations, legal obligations, or any other reason deemed appropriate by the Company in its sole discretion.

Such modification, suspension, or removal shall not entitle the Client to any compensation, damages, or remedy of any kind, and the Client hereby irrevocably waives any claim or cause of action against the Company in relation thereto.

The Client understands and accepts the following:

1. Orders may not be modified or cancelled after submission. The Company is not obliged to accept modification or cancellation requests.

3. The Client is solely responsible for tracking the status of all orders.
4. If the Client is unsure about the status of any order, they must promptly contact the Company.
5. The Client remains liable to pay any amounts due upon entering a transaction, in accordance with the Company's general fees and Deposits and Withdrawals Policy.

The price at which a Client's order is executed is determined by the Company at the time of execution and may differ from prices quoted on external exchanges or platforms. The Company is not obligated to match any specific exchange or market price. The Company's price is final and binding, as reflected in the execution confirmation provided to the Client. The Client will see the final price prior to the execution of the order.

10.9. Fees and Charges

All applicable fees, commissions, and charges are displayed on the Platform and/or Website. By using the services, the Client agrees to the fees as shown at the time of the transaction. The Company may update its fees at any time without prior notice, and it is the Client's responsibility to review the latest fee schedule before placing any order.
